# **Summer Internship (unpaid) with the UN Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory (UNRoD) (Vienna)**

<http://www.unrod.org/>

**The United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory (UNRoD)** is a subsidiary organ of the UN General Assembly. It operates under the administrative authority of the Secretary-General at UN Office at Vienna (UNOV) which provides administrative and logistical backstopping. UNRoD's mandate is to serve as a record, in documentary form, of the damage caused to all natural and legal persons concerned as a result of the construction of the Wall by Israel in the Occupied Palestinian Territory, including in and around East Jerusalem. UNRoD is not a compensation commission, claims-resolution facility, judicial or quasi-judicial body.

## **Application information and form is available online at:**

[http://www.unvienna.org/unov/en/job\\_internship.html](http://www.unvienna.org/unov/en/job_internship.html)

In addition to submitting through the UNOV procedure, applicants should send a copy of the form with a cover letter and resume to Mr. Vladimir Goryayev, UNRoD Executive Director, [vladimir.goryayev@unvienna.org](mailto:vladimir.goryayev@unvienna.org).

Interns at UNRoD work with the claims officers analyzing claims. Claims are filed, usually in Arabic, translated into English and then entered into the computer system. The staff analyzes the claims to determine such issues as, e.g., is the person an eligible claimant; has he/she demonstrated a *prima facie* interest in the property or loss claimed; is the claim one for "material" damage; is the loss claimed one beyond the "green" line (i.e., in the Palestinian occupied territory); is the loss *prima facie* causally related to the construction of the Wall; is there enough evidence to make out a *prima facie* case supporting the claim?

This analysis becomes the basis for review by the three-member Board as to whether all or part of the claim should be entered into the Register. Claims are not adjudicated *per se*, but rather admissibility/eligibility findings are made on reduced standards of proof.

Claims can be for agricultural loss, business loss, loss of access to education and health

services, employment loss, etc., and can be made by persons, businesses or organizations. A small UNRoD claims intake unit is in the area (so far in the North) going from village to village personally meeting with claimants to collect claims. As of October 2009, over 2000 claims forms have been collected. The Board has approved registration of over 650 claims, after reviewing the staff analysis of those claims.
