

Job Title: Legal Intern – Summer 2010 - Korea

Lawmatch Job ID: 6633202
Position Title: Legal Intern
Company Name: MagnaChip Semiconductor
Practice Setting: Corporate Counsel
Job Function: Law Student
Required Exp. 0+ years
Job Type: Summer
Location(s): Seoul, South Korea

Description:

MagnaChip Semiconductor is seeking a legal intern in its Seoul, Korea, office for summer 2010. MagnaChip is a growing company that is a leading designer, developer, and manufacturer of analog and mixed-signal semiconductors. For more information, please visit www.magnachip.com.

The intern position reports directly to the General Counsel and will involve substantive legal work that we believe will provide an excellent learning experience for any law student interested in an international corporate and securities law practice. The intern's primary role will be to assist with (i) the preparation of our public filings, including our initial public offering, (ii) reviewing, drafting, and negotiating a wide range of agreements relevant to our business, and (iii) general corporate legal work.

We ask that all applicants have exceptional writing skills and the ability to easily adapt to an intercultural work environment. Korean language fluency is essential. We prefer applicants who are now completing their 1L year. The position is unpaid, although a small stipend is possible subject to HR approval. Relocation and housing assistance are unfortunately not available.

Interested applicants should forward a resume and brief cover letter in .doc or .pdf format to John McFarland, Senior Vice President and General Counsel, at jmcfarland@magnachip.com.

Requirements:

Prefer applicants now completing their 1L year. Korean language proficiency is essential
